

Payment entitlement application form

To be submitted once the ground-mounted PV installation is realised and started operation

Eingangsstempel/ Registration stamp

Note: This form must be completed electronically.

1. General information

1.1 Last name

1.2 Given name

1.3 Company name (if the bidder is a partnership having legal personality or is a legal person)

1.4 Street name

1.5 Number

1.6 Postal code

1.7 City

1.8 Email address

1.9 Phone number

1.10 Country

2. Specific details of the installation

2.1 The ground-mounted installation for which a payment entitlement should be issued is

a ground-mounted installation that has been newly constructed, or

a (capacity) extension of an existing ground-mounted installation

2.2 Installed capacity in kWp (without decimals) of the ground-mounted installation for which a payment entitlement is to be issued.

2.3 Date of commissioning in accordance with the Renewable Energy Sources Act

2.4 Name of the ground-mounted installation (if applicable)

2.5 Information concerning the location of the ground-mounted installation

Denmark (only 2.5 f) must be filled in)

Germany (2.5 a) to f) must be filled in)

a) Federal State (Bundesland)

b) District

c) Municipality

d) Local subdistrict

e) Cadastral section(s) and number(s) of the parcel(s) of land (please separate different cadastral sections using a full stop and several parcels of land using a semicolon, e.g.: Flur1: 001; 002; 003. Flur2: 004; 005; 006)

Note: If the ground-mounted installation is located in the territory of more than one Federal State (Bundesland), district or municipality, please provide the additional information required using the *location form* to be submitted as part of the application.

f) Geographic coordinates (data must be supplied for at least one coordinate system)

aa) UTM: Zone East North

bb) Geographical: Longitude (E) Latitude (N)

3. Information regarding the award notice(s) that are to be used for the ground-mounted installation

3.1 What is/are the number(s) of the successful bid(s) which is/are to be used for the above ground-mounted installation and to then be marked as having been used?

a) Number stated in the award notice

aa) Bidding volume to be marked as having been used (in kWp; without decimals)

b) Number stated in the award notice

bb) Bidding volume to be marked as having been used (in kWp; without decimals)

In the case that there are further numbers of successful bids and bidding volumes which are to be marked as having been used, please provide this information here:

4.1 to 4.4 are only to be filled in if the ground-mounted installation is located in Germany.

4.1 What is the EEG reference number of the existing installation that has been expanded (if known)?

4.2 The installation has been built in an area covered by an approved land-use plan within the meaning of Section 30 of the Building Code. The land-use plan has been adopted or amended including or partially including for the purpose of constructing a ground-mounted installation.

Yes

No

4.3 The ground-mounted installation is located on a site

that had already been sealed by the time when the decision to adopt or amend the land-use plan was taken,

that was being used as a conversion area used for commercial, transport, housing or military purposes at the time when the decision to adopt or amend the land-use plan was taken,

that was situated along motorways and railway lines at the time when the decision to adopt or amend the land-use plan was taken; the ground-mounted installation was constructed at a distance of up to 110 metres, measured from the outer edge of the paved roadway,

that was or is owned by the Federation or the Institute for Federal Real Estate (Bundesanstalt für Immobilienaufgaben) and was managed by the Institute for Federal Real Estate at the time of the adoption or amendment of the binding land-use plan,

that is located within the area covered by a land-use plan that was adopted prior to 1 September 2013 and has not since been amended to allow for the construction of an installation for the generation of electricity from solar radiation energy, or

that is located within an area that was designated a commercial or industrial zone within the meaning of Sections 8 or 9 of the Federal Land Utilisation Ordinance prior to 1st January 2010 – even if this designation has been changed since 1st January 2010, including or partially including for reasons pertaining to the intention of constructing an installation for the generation of electricity from solar radiation energy.

4.4 The ground-mounted installation is not

located on a site that has received a legally-binding designation as a natural reserve within the meaning of Section 23 of the Federal Nature Conservation Act or as a national park within the meaning of Section 24 of the Federal Nature Conservation Act which was in application at the time of the adoption or amendment of the land-use plan.

5. Information in accordance with Section 3 of the Register of Installations Ordinance (Anlagenregisterverordnung)

5.1 Is there an intention to assert a claim for payment in accordance with Section 19 of the Renewable Energy Sources Act for the electricity generated by the installation?

Yes

No

5.2 Is all or part of the electricity generated by the installation to be consumed by the operator or by a third party in the immediate vicinity of the installation without being fed through the grid?

Yes

No

5.3 Is the ground-mounted installation a ground-mounted installation within the meaning of Section 5 No. 16 of the Renewable Energy Sources Act?

Yes

No

5.4 How many hectares of land are to be used for the ground-mounted installations?

5.5 How many hectares of this is cropland?

5.6 Has the installation been equipped with remote control technology that allows for the feed-in quantity to be reduced at any given time and for the feed-in quantity to be monitored in real time?

Yes, by the network operator (go to 5.7)

Yes, by a direct marketer or another person to whom the electricity is sold (go to 5.8)

No (go to 5.8)

5.7 Does the technology used for this purpose meet the criteria for a 'shared technical device' set out in Section 9 (1) Sentence 2 of the Renewable Energy Sources Act?

Yes

No

5.8 Name of the grid system operator to which the installation is (to be) connected

5.9 Information concerning the grid connection point:

a) Name/identifying of the grid connection point

b) Voltage level

5.10 What is the installation's reference number stated in the approval notice registered in the register of installations?

5.11 What is the operator's number you have been assigned in the register of installations (if applicable)?

6. Once the information has been confirmed by the grid system operator the security payment shall be transferred into the following account

6.1 Account holder

6.2 IBAN

6.3 BIC

6.4 Name of bank

7.1 By signing this form I confirm that

- 1) at the time of application, the bidder is also the operator of the ground-mounted installation.
- 2) none of the imported parts used in the construction or expansion of the ground-mounted installation have been imported in breach of any of the implementing regulations or decisions regarding Council Regulation (EC) No. 1225/2009 of 30 November 2009 on protection against dumped imports from countries not members of the European Community (OJ L 343/51 of 22 December 2009) or of any implementing regulations or decisions regarding Council Regulation (EC) No. 597 of 11 June 2009 on protection against subsidised imports from countries not members of the European Community (OJ L 188/93 of 18 July 2009).
- 3) prior to the filing of the application, no funding has been claimed or received under the Renewable Energy Sources Act (Erneuerbare-Energien-Gesetz), the Ordinance on auctions for funding for ground-mounted PV installations (Freiflächenausschreibungsverordnung), or the funding system of the Cooperating State for the electricity generated by the ground-mounted installation or by the expanded part of the existing ground-mounted installation.
- 4) the information I have provided is correct.
